PennHIP Report

Referring Veterinarian: Dr Dave Cloutier
Email: veazievvet@veazievvet.com

Clinic Name: Veazie Veterinary Clinic
Clinic Address: 1522 State St.
Veazie, ME 04401
Phone: (207) 941-8840
Fax: (207) 942-5317

Patient Information

Client: SEELENVOL GERMAN SHEPHARDS,
SEELENVOL GERMAN SHEPHARDS

Tattoo Num:

Patient Name: Ambrogino Vom Seelenvoll

Patient ID: 20849Y

Reg. Name: Ambrogino Vom Seelenvoll

Registration Num: DN47476001

PennHIP Num: 103771

Microchip Num: 985112007394885

Species: Canine

Breed: GERMAN SHEPHERD

Date of Birth: 14 Sep 2016

Age: 16 weeks

Sex: Male

Weight: 28.4 lbs/12.9 kgs

Date of Study: 05 Jan 2017

Date Submitted: 05 Jan 2017

Date of Report: 16 Jan 2017

Findings

Distraction Index (DI): Right DI = 0.30, Left DI = 0.29.

Osteoarthritis (OA): No radiographic evidence of OA for either hip.

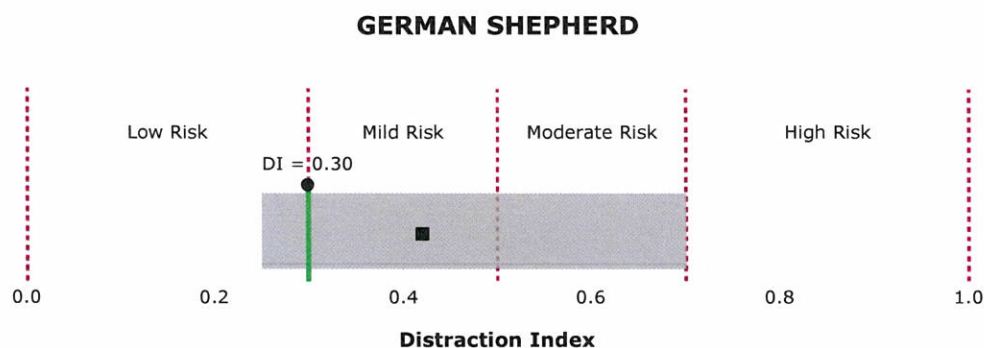

Cavitation/Other Findings: None.

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.30.

OA Risk Category: The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.

Distraction Index Chart:

Breed Statistics: This interpretation is based on a cross-section of 13538 Canine patients of the GERMAN SHEPHERD breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.25 - 0.70) for the breed. The breed average DI is 0.42. The patient DI is the solid circle (0.30).

Summary: The degree of laxity (DI = 0.30) falls within the central 90% range of DIs for the breed. This amount of hip laxity places hip at a minimal risk to develop hip OA. No radiographic evidence of OA for either hip.

Interpretation and Recommendations:
